DEDICATION

The seniors of 1966 will be the last class to be graduated from the present Marion High School. They join the ranks of students who were 'lasts' as our school expanded from the pictured 1929 building to our present institution. In keeping with the needs of a constantly enlarging student body and an expanding educational program, next year's junior high and high school students will be housed in a modern, a new physical plant.

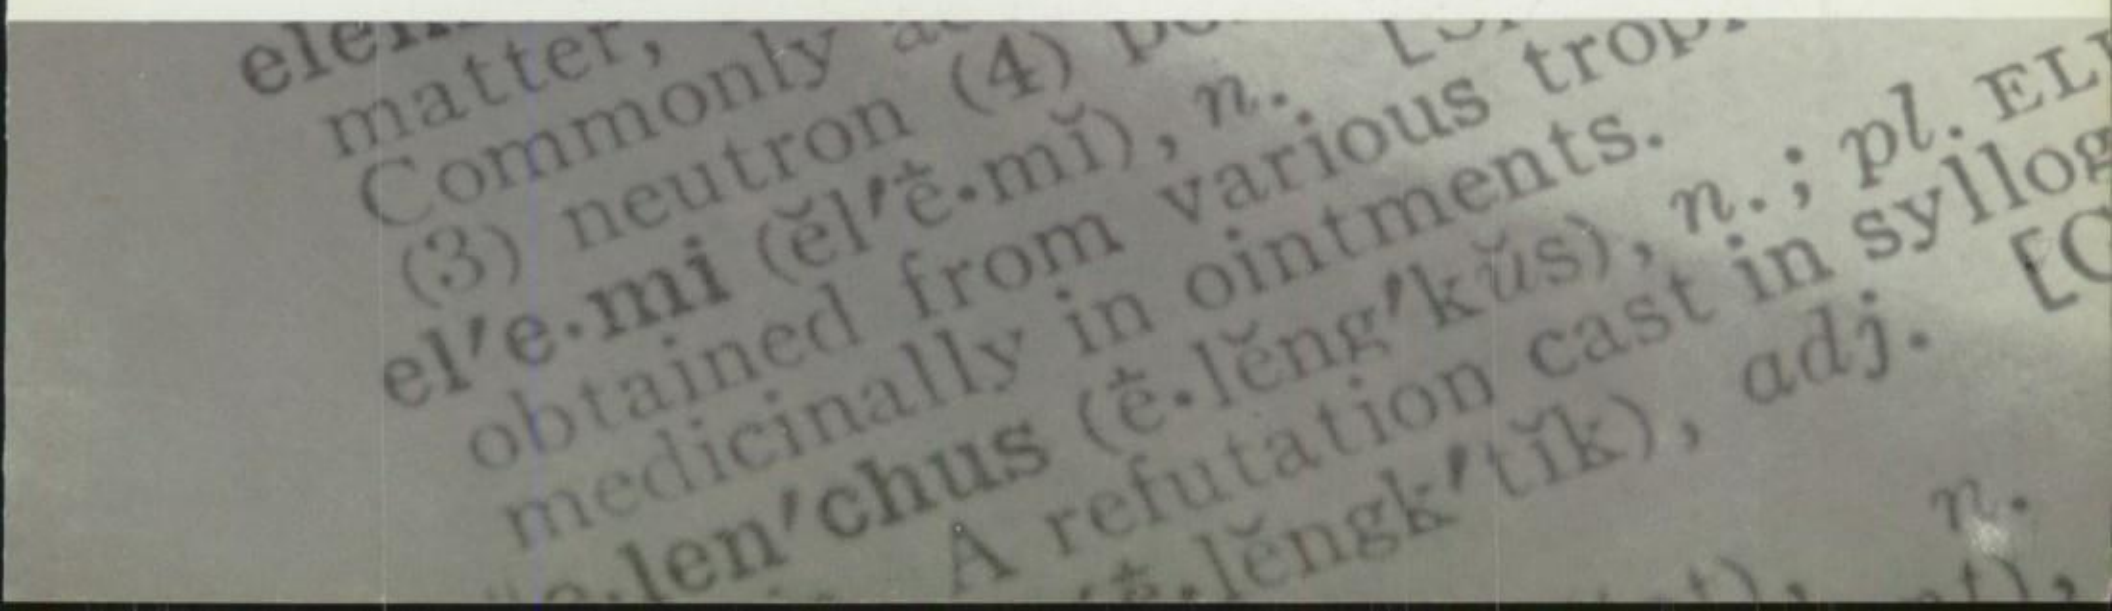

This book is dedicated to the students of Marion High School past, present, and future in
